Section VI: Letters of Support from Senator Gillibrand 32

Introduction

Dear Fellow New Yorker,

I want to take this opportunity to provide you with some important information on funding opportunities for historic preservation and cultural tourism. New York has some of the most valuable historical and natural landmarks in the country, as home to over 250 National Historic Landmarks as designated by the National Park Service. This is by no means, however, the extent of New York's cultural and historical significance and every day, New Yorkers are uncovering new pieces of our state's past and looking to highlight another part of our state's natural beauty.

Historic and cultural projects not only preserve our past and educate our children, but also serve as economic opportunities for our communities to take advantage of a robust tourism industry. The development and maintenance of these sites is an important responsibility of our communities and organizations, but during these difficult economic times, it is getting harder to secure the funding necessary for this work. To assist in these efforts, the federal and state governments distribute billions of dollars worth of grants and loans each year for historical preservation, museum upkeep and cultural tourism.

Finding the resources that meet your needs in this complex web of agencies can be an impossible task. For this reason, I have created this guidebook to serve as a starting point in providing information about what resources are available to individuals, businesses, community organizations and local governments.

The information in this guidebook details grants, loans and other funding assistance. Its contents are by no means comprehensive and as new programs and opportunities emerge, its contents will be updated to provide New Yorkers with the most information possible.

The guidebook is comprised of five different sections, each providing information about grant funding sources, strategies for writing effective grant proposals and ways in which my office can assist you in this process.

My Senate website (www.Gillibrand.senate.gov) is continually updated with critical information about various funding opportunities that are available to you, how to access them, and where to apply. As you move forward with any grant opportunities, please contact Abraham Hiatt, my Grants Director, for letters of support, when applicable. You can reach him in my Washington, D.C. Office at Grants@Gillibrand.Senate.gov, or (202)-224-4451.

Sincerely,

Kirsten E. Gillibrand

4. Sustaining Cultural Heritage Collections

Sustaining Cultural Heritage Collections helps cultural institutions meet the complex challenge of preserving large and diverse holdings of humanities materials for future generations by supporting preventive conservation measures that mitigate deterioration and prolong the useful life of collections.

NEH therefore invites proposals that explore and implement energy-efficient and cost-effective preventive conservation measures designed to mitigate the greatest risks to collections.

Additional Information:

- This program offers two different kinds of grants. The first grant is for planning and evaluation of To help an institution develop and assess preventive conservation strategies, grants of up to \$40,000 will support planning and evaluation projects, which may encompass such activities as site visits, planning sessions, monitoring, testing, project-specific research, and preliminary designs for implementation projects. Planning and evaluation grants may be especially helpful to institutions interested in exploring sustainable preventive conservation strategies.
- The second grant is for implementation. It is designed to help an institution implement a preventive conservation project; grants of up to \$400,000 are available. Implementation projects should be based on planning that has been specific to the needs of the institution and its collections within the context of its local environment. 10. Interpreting America's Historic Places: Implementation and Planning Grants

This program supports public humanities projects that exploit the evocative power of historic places to explore stories, ideas, and beliefs that deepen our understanding of our lives and our world.

Additional Information:

- The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways.
- Interpreting America's Historic Places projects may interpret a single historic site or house, a series of sites, an entire neighborhood, a town or community, or a larger geographical region. Grants for Interpreting America's Historic Places should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public.
- NEH offers two categories of grants for Interpreting America's Historic Places: Planning and Implementation Grants.

Eligibility:

- Planning grants are available for those projects that may need further development before applying for implementation. This planning can include the identification and refinement of the project's main humanities ideas and questions, consultation with scholars in order to strengthen the humanities content, preliminary audience evaluation, preliminary design of the proposed interpretive formats, beta testing of digital formats, development of complementary programming, research at archives or sites whose resources might be used, or the drafting of interpretive materials.
- Implementation grants support the final preparation of a project for presentation to the public. Applicants must submit a full walkthrough for an exhibition, or a prototype or storyboard for a digital project that demonstrates a solid command of the humanities ideas and scholarship that relate to the subject. Applicants for implementation grants should have already done most of the planning for their projects,
- Any U.S. nonprofit organization with IRS 501(c) (3) tax-exempt status is eligible, as are state and local governmental agencies. Individuals are not eligible to apply.

Section IV: Institute of Museum and Library Services

The Institute of Museum and Library Services is the primary source of federal support for the nation's 123,000 libraries and 17,500 museums. The Institute's mission is to create strong libraries and museums that connect people to information and ideas. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development.

Libraries and museums help create vibrant, energized learning communities. Our achievement as individuals and our success as a democratic society depend on learning continually, adapting to change readily, and evaluating information critically.

As stewards of cultural heritage, information and ideas, museums and libraries have traditionally played a vital role in helping us experience, explore, discover and make sense of the world. That role is now more essential than ever. Through building technological infrastructure and strengthening community relationships, libraries and museums can offer the public unprecedented access and expertise in transforming information overload into knowledge.

Our role at the Institute is to provide leadership and funding for the nation's museums and libraries, resources these institutions need to fulfill their mission of becoming centers of learning for life crucial to achieving personal fulfillment, a productive workforce and an engaged citizenry.

1. Museum Assessment Program Grants

The Museum Assessment Program (MAP) is supported through a cooperative agreement between the Institute of Museum and Library Services and the American Association of Museums. It is designed to help museums assess their strengths and weaknesses, and plan for the future.

Additional Information:

- The program provides technical assistance for four kinds of assessments: (1) collections management; (2) governance; (3) institutional; and (4) public dimension. Assessments are funded on a first-come, first-served basis. Museums may apply for MAP assessments in any sequence. Museums that received a MAP assessment grant on or before September 2003

may apply for a grant to fund participation in that assessment a second time. Application materials can be obtained by contacting the American Association of Museums.

2. Statewide Planning Grants

This grant program is part of the Connecting to Collections Program. This grant provides funds for creating plans to insure the safety of public information collections and the people working with those collections. Organizations will seek to better understand the obstacles to receiving training – including cost, travel time, and time away from work. From this, they will learn which formats (site visits, publications, workshops, online training) work best for the institutions.

Topics for preservation education and assistance will also include disaster preparedness and response, surveys, security, environmental controls, and funding.

Additional Information

- Affiliated programs: The New York State Education Department, in partnership with New York State Council on the Arts, New York Library Association, New York Archives Alliance, Museum Association of New York, Lower Hudson Conference of Historical Agencies & Museums, and Upstate History Alliance.
- Deadline: December 15, 2009, Grants up to \$40,000.
