Introduction

Dear Fellow New Yorker:

I want to take this opportunity to provide you with some important information regarding the funding opportunities pertaining to lead-based paint removal. Each year the federal government distributes grant and loan money to institutions throughout the United States. Additionally, New York State offers a great deal of grants, and New York's non-profit organizations, community-based organizations, colleges, universities, and local governments are exceptionally well qualified to compete for these funds. The information in this packet is meant to provide assistance to those New York institutions seeking federal, state, and city funds.

Most homes built prior to 1970 have lead-based paint that can be found on its exterior and interior and can be harmful to the home owners. Furthermore, the dust and paint chips discarded from the areas of an older home can be especially hazardous to children under the age of six. I urge you to take advantage of these funding opportunities that have been outlined in three sections of this guidebook.

Finding the resources that meet your needs in the complex web of agencies can be an impossible task. For this reason, I have created this guidebook to serve as a starting point in providing information about what resources are available to individuals, businesses, community organizations and local governments. The information in this guidebook details energy program grants, loans, and tax credits. Its contents are by no means comprehensive, and as new programs and opportunities emerge, its contents will be updated to provide New Yorkers with the most up-to-date information possible.

My Senate website (www.gillibrand.senate.gov) is continually updated with critical information about various funding opportunities that are available to you, how to access them, and where to apply. You can also request hard copies of this guidebook, and other thematic funding guidebooks, by filling out the guidebook order form at the end of this guidebook and mailing it back to my New York City office or by emailing an electronic copy to grants@gillibrand.senate.gov. As you move forward with any grant opportunities, please contact Andrew Usyk, my Grants Director, for letters of support when applicable. You can reach him in my Washington, D.C. office at grants@gillibrand.senate.gov, or (202)-224-4451.

Sincerely,

Kirsten Gillibrand
United States Senator

Federal Section I

Environmental Protection Agency

The mission of EPA is to protect human health and to safeguard the natural environment -- air, water and land -- upon which life depends. The EPA is divided into 10 regions that span from coast to coast in the United States. These regions are essential to the Agency's success considering each part of the country has a specific environmental aspect that is necessary to preserving.

Although the EPA is divided throughout our country, the span of its funding opportunities reaches across each state. The EPA has created grants that apply to a number of issues to meet the needs of each of its applicants.

1) Targeted Grants to Reduce Childhood Lead Poisoning

- EPA is soliciting proposals from eligible entities to conduct activities to reduce incidences of childhood lead poisoning in vulnerable populations, projects will address develop tools to address unique and challenging issues in lead poisoning prevention, especially tools that are replicable and scalable for other areas.

Additional Information:

- Activities may include training medical professionals, developing culturally-specific lead outreach materials, distributing pamphlets, establishing an in-home education program to visit the homes of young children, promoting lead-safe work practices, and outreach to stakeholders (renovators, landlords, code enforcement officials, etc.) on the requirements of the EPA's Lead Renovation, Repair, and Painting rule and pre-renovation education requirements in high-risk areas.

Eligibility:

- State governments, U.S. territories or possessions, federally recognized Indian tribal governments and Native American Organizations, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, local governments and individuals and international entities.

Contact:

- Adrienne Priselac
Email: priselac.adrienne@epa.gov
Telephone: (415) 972-3285

Federal Section II

United States Department of Housing and Urban Development

The U.S. Department of Housing and Urban Development (HUD)'s mission is to create strong, sustainable, inclusive communities and quality affordable homes for all. HUD is working to strengthen the housing market to bolster the economy and protect consumers; meet the need for quality affordable rental homes; utilize housing as a platform for improving quality of life; build inclusive and sustainable communities free from discrimination; and transform the way HUD does business.

Through HUD's mission, they have developed funding opportunities to meet the needs of applicants that are dedicated to developing their own community and improve the standard of living.

1) The Lead Based Paint Hazard Control Grant

- The Lead Hazard Reduction Demonstration Grant Program assists urban jurisdictions with the greatest lead-based paint hazard control needs, in undertaking programs for the identification and control of lead-based paint hazards in eligible privately owned rental and owner-occupied housing units.

Additional Information:

- The Lead-Based Paint Hazard Control Grant program is the largest program in terms of dollar amount and number of grants.

Eligibility:

- State, county, city, township, special district and Native American governments are all eligible to apply for funding.

Contact:

- Michelle M. Miller
HUD Office of Healthy Homes and Lead Hazard Control
451 7th St. S.W., Room 8236
Washington, D.C. 20410
Michelle.M.Miller@hud.gov
Telephone: (202) 402-5769

2) Healthy Homes Technical Studies

- HUD is funding studies to improve HUD's and the public's knowledge of housing-related health and safety hazards, and to improve or develop new hazard assessment and control methods, with a focus on key residential health and safety hazards. The overall purpose of the Healthy Homes Technical Studies program is to gain knowledge to improve the efficacy and cost-effectiveness of methods for evaluation and control of housing-related health and safety hazards.

Eligibility:

- Academic, not-for-profit and for-profit institutions located in the U.S., state and units of general local government, and federally recognized Native American tribes are eligible to apply.

Contact:

- Dr. Peter Ashley
Office of Healthy Homes and Lead Hazard Control
Email: Peter.J.Ashley@hud.gov
Telephone: (202) 402-7595

3) Lead Hazard Reduction Demonstration Program

- The purpose of the Lead-Based Paint Hazard Control (LHC) and the Lead Hazard Reduction (LHRD) grant programs is to identify and control lead-based paint hazards in eligible privately owned housing for rental or owner-occupants.

Additional Information:

- Assists States, Native American Tribes and local governments with high numbers of rental units built in 1940 or earlier in creating wide-ranging programs to identify and control lead-based paint hazards in eligible privately owned housing. Each year the OHHLHC awards roughly 15 grants of up to \$4M per grant.
- This program requires a statutory match from non-federal sources of 25 percent of the requested federal funds.

Eligibility:

- States, Native American Tribes and local governments.

Contact:

- Michelle M. Miller
HUD Office of Healthy Homes and Lead Hazard Control
451 7th St. S.W., Room 8236
Washington, D.C. 20410
Telephone: (202) 402-5769

4) The Operation Lead Elimination Action Program

- The overall program objective is to gain knowledge to improve the efficacy and cost-effectiveness of methods for the evaluation and control of housing-related health and safety hazards. The program, part of HUD's Healthy Homes Initiative, is particularly focused on children's health.

Additional Information:

- The fund will help create wide-ranging programs to identify and control lead-based paint hazards in eligible privately owned housing by leveraging private sector funding. Applicants are not required to provide a match to participate, but receive higher points during review based on the amount of leveraged funds dedicated to the applicant's proposal.
- The Healthy Home Technical Studies (HHTS) program is a competitive grant program that is announced annually through HUD's SuperNOFA (Notice of Funding Availability) publication in the Federal Register. About 6 grants of up to \$2 million are awarded each year.

Eligibility:

- Academic and not-for-profit institutions located in the U.S., state and units of local general government, federally recognized Native American tribes, and for-profit organizations.

Contact:

- Dr. Peter Ashley
HUD Office of Healthy Homes and Lead Hazard Control
451 7th St. S.W.
Washington, D.C. 20410
Email: Peter.J.Ashley@hud.gov
Telephone: (202) 402-7595

5) The Lead Technical Studies Grant Program

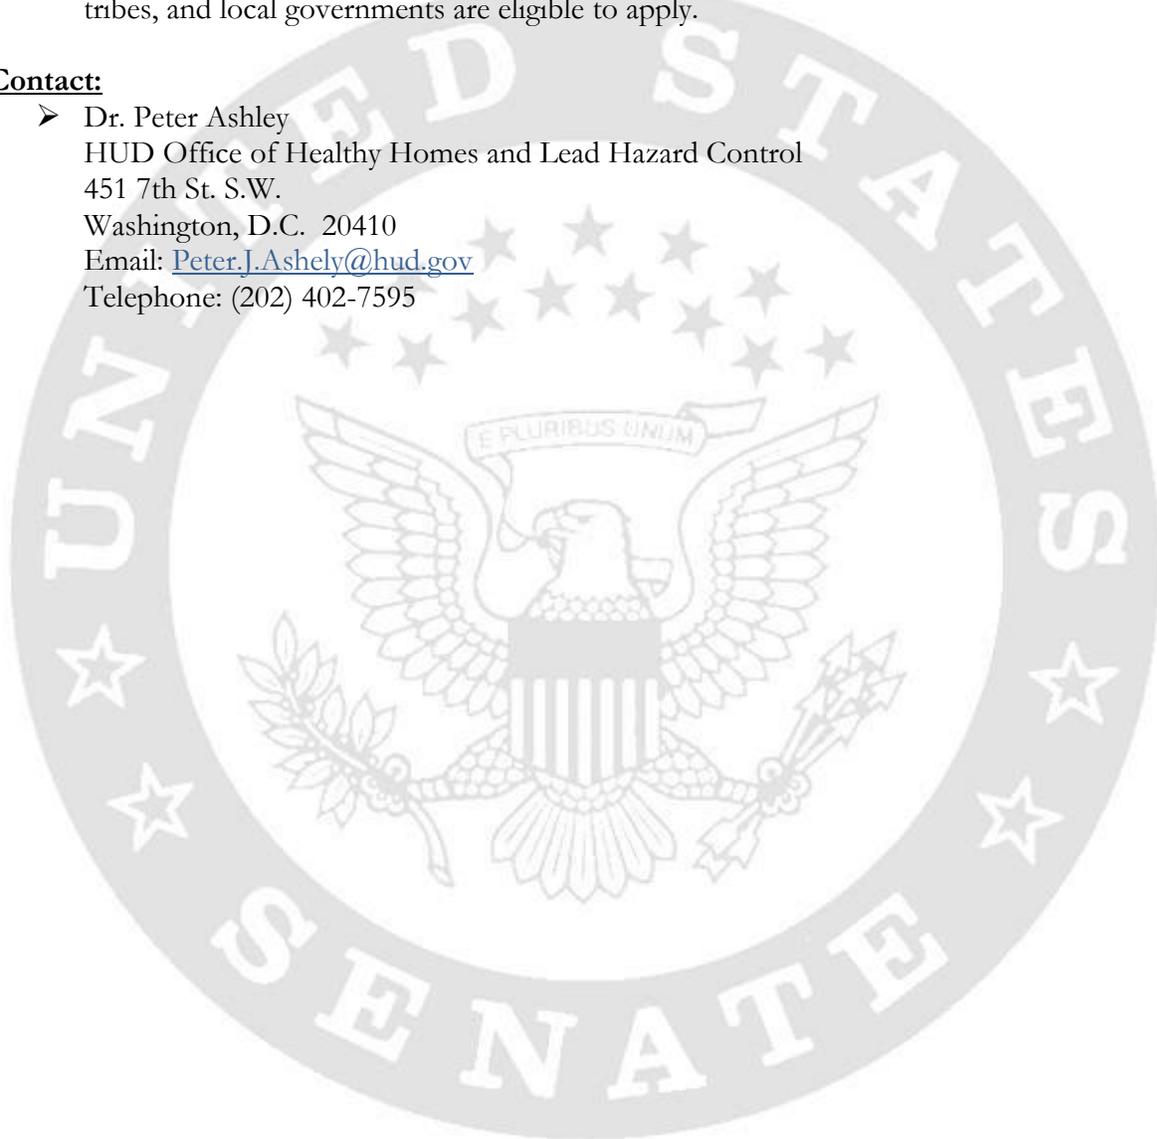

- The program allows grantees to conduct research to gain knowledge on improving the efficacy and cost-effectiveness of methods for evaluation and control of residential lead-based paint hazards. Applicants are not required to provide a match to participate.

Eligibility:

- Academic institutions, non-profit and for-profit organizations, states, Native American tribes, and local governments are eligible to apply.

Contact:

- Dr. Peter Ashley
HUD Office of Healthy Homes and Lead Hazard Control
451 7th St. S.W.
Washington, D.C. 20410
Email: Peter.J.Ashely@hud.gov
Telephone: (202) 402-7595

State Section I

New York State Energy Research and Development Authority

New York State Energy Research and Development Authority (NYSERDA) is a public benefit corporation created in 1975 under Article 8, Title 9 of the State Public Authorities Law through the reconstitution of the New York State Atomic and Space Development Authority. NYSEDA's earliest efforts focused solely on research and development with the goal of reducing the State's petroleum consumption. Today, NYSEDA's aim is to help New York meet its energy goals: reducing energy consumption, promoting the use of renewable energy sources, and protecting the environment.

NYSERDA seeks to develop a diversified energy supply portfolio, improve market mechanisms, and facilitate the introduction and adoption of advanced technologies that will help New Yorkers plan for and respond to uncertainties in the energy markets. These plans can be advanced through the funding opportunities offered by NYSEDA.

1) The Assisted Home Performance Program with ENERGY STAR

- Assisted Home Performance with ENERGY STAR offers two incentives for eligible New York home owners. The first is a subsidy for up to \$5,000 to pay up to 50% of the total cost of the approved efficiency improvements in a one to four family home. The second incentive offers low interest rate financing for the balance of the cost of the efficiency improvements through selected Lenders.

Additional Information:

- In homes built later than 1960, high levels of lead based paint can be found in and around the windows. By removing your old windows, you will not only be removing a high lead content from your home but improving the energy efficiency with windows that are better sealed.

Eligibility:

- One to four family homes that have household incomes at or below 80% of the State Median or Area Median Income.

Contact:

- Telephone: 1-866-697-3732
Email: hpwes@nyserda.ny.gov

State Section II

New York State Division of Housing and Community Renewal

The Division of Housing and Community Renewal is responsible for the supervision, maintenance and development of affordable low- and moderate-income housing in New York State. The Division performs a number of activities in fulfillment of this mission, including community development, housing operations, rent administration, and policy development.

To sustain development in New York State communities, the Division of Community Renewal has introduced a series of funding opportunity. These funds promote the possibilities and opportunities to beautify and better a region through housing, business, and neighborhood revitalization.

1) The New York State HOME Program

Administered by the New York State Housing Trust Fund Corporation (HTFC), the program uses federal HOME Investment Partnership Program funds to expand the supply of decent, safe, and affordable housing within the State. Approximately \$33 million is available for capital (multifamily) projects and local program administrators (single family projects) in 2008.

Additional Information:

- The HOME Program funds a variety of activities through partnerships with counties, towns, cities, villages, private developers, and community-based non-profit housing organizations. The program provides funds to acquire, rehabilitate, or construct housing, or to provide assistance to low-income home-buyers and renters.
 - Rehabilitation standards include: Soil Treatments for Lead Hazards
 - Exterior Lead Hazards:
 - Lead-containing Components
 - Interior Walls and Ceilings
 - Hazardous Materials.
- HOME Program funds may only be used to assist households with incomes at or below 80 percent of area median income. Rental projects must primarily serve households with incomes at or below 60 percent of area median income. Assisted rental units must remain affordable for a period of between five and 20 years, depending on the initial amount of subsidy provided for the project.

Eligibility:

- Any private for-profit or not-for-profit entity that can demonstrate the capacity to develop and operate a qualifying project is eligible to apply for HOME project funding. Units of general local government that have not been designated by HUD as participating jurisdictions and not-for-profit corporations that meet certain administrative tests may also apply as local program administrators. Jurisdictions which receive HOME program funding directly from the federal government may not apply for New York State HOME Program funds.

Contact:

- For more information, contact your regional DHCR office. For their contact information please visit, <http://www.dhcr.state.ny.us/AboutUs/contact.htm#ocd>

City Section I

New York City Department of Housing Preservation and City Development

The New York City Department of Housing Preservation and Development (HPD) is the largest municipal developer of affordable housing in the nation. Since 1987, HPD has provided over \$8.7 billion to support the repair, rehabilitation and new construction of hundreds of thousands of units of housing. This administration's housing agenda, The New Housing Marketplace: Creating Housing for the Next Generation is the largest investment in the City's housing stock in 20 years.

1) The Primary Prevention Program

- The Program gives owners the means to make their buildings lead-safe through low-level interim treatment work. Treatment concentrates on friction surfaces - door jams, window sills and wells, and cabinets - because friction creates lead dust. The common areas and fire escapes are also treated. Buildings owners apply for forgivable loans valued at \$9,000 to \$10,000 per apartment, the average cost of lead treatment work. Some units may receive up to \$10,000 to \$11,000 in conjunction with other moderate rehabilitation work. Owners, in turn, hire contractors who are trained in EPA certified courses in lead treatment. HPD inspects the work.

Additional Information:

- Preferred Funding Locations: Central and West Bronx, Central and East Brooklyn, and West Queens. However, City funds will support buildings citywide. All owners must be current on all City taxes at the time of identification.
- The loan amount is secured by a mortgage on the property which evaporates after three years, provided the owner is in full compliance with the terms of the loan.

Eligibility:

- Families with children under six years of age, including pregnant mothers and families who provide day care services to children less than six years of age for at least six hours a week, are ideal for participation in the grant program. Additionally, the building must have been built before 1960, and 80% of the tenants must be at low-income thresholds.

Letters of Support from Senator Gillibrand

While Senator Gillibrand does NOT decide which organizations are awarded grants, there are instances in which it is appropriate for the Senator Gillibrand to write a letter of support for an application. If you wish to request a letter of support for your application, you must supply Senator Gillibrand with the following:

1. A description of your organization,
2. Summary of the application,
3. a description of what the money will be used for, and
4. a draft letter of support

Please forward this information to the nearest regional office:

Casework Form

If you have encountered a problem involving a federal government agency or federally subsidized benefit that you have not been able to successfully resolve, Senator Kirsten Gillibrand's staff of constituent liaisons may be able to assist you in the following areas:

Employment Issues: including assistance with disability benefits, employer-provided health care plans and COBRA, Family Medical Leave Act (FMLA) benefits, pensions, unemployment benefits, Federal and State Workers Compensation claims, and retirement-related issues.

Consumer Affairs: including assistance obtaining a home loan modification under the Making Home Affordable Program, insurance claims, dissatisfaction with consumer products or services, environmental regulations, and concerns regarding air quality, water or land contamination.

Immigration Issues: including issues with visitor visas, family and employment based visas, lawful permanent resident status, naturalization, international adoptions, detention, passports, customs and border issues, and assistance to American Citizens in crisis abroad.

Veteran Issues: including issues with VA pension and disability benefits, education benefits, veteran burial or funeral issues, and issues regarding the VA medical centers.

IRS Issues: including connecting constituents with the Taxpayer Advocate Service to address federal tax issues including lost or delayed tax refunds, penalty abatements, payment installation plans, tax credits, referrals to IRS Low Income Tax Clinics and paper tax forms.

Military Issues: including issues pertaining to the Department of Defense, Army, Navy, Marine Corps, Air Force, Coast Guard, Reserves and New York State National Guard, as well as obtaining military records, medals and academy nominations.

Health Care Issues: including issues with Medicare and Medicaid, health insurance, insurance providers, nursing homes, hospitals, prescription drugs, and 9/11 health matters.

Social Security: including issues with Supplemental Security Income, Social Security Disability, survivors' benefits, and retirement benefits.

Social Services: including issues with food stamps, HEAP (low-income heating program), FEMA and disaster relief, and issues related to federally subsidized housing.

Please visit the "Services" section of www.gillibrand.senate.gov or call (212) 688-6262 for further information. Please note that if you are seeking assistance with a case that involves a lawsuit or litigation, Senate Rules prohibit the Office of Senator Gillibrand from giving legal advice or intervening in the proceedings.
