Section VI: Letters of Support from Senator Gillibrand .................................................. 32
Introduction

Dear Fellow New Yorker,

I want to take this opportunity to provide you with some important information on funding opportunities for historic preservation and cultural tourism. New York has some of the most valuable historical and natural landmarks in the country, as home to over 250 National Historic Landmarks as designated by the National Park Service. This is by no means, however, the extent of New York’s cultural and historical significance and every day, New Yorkers are uncovering new pieces of our state’s past and looking to highlight another part of our state’s natural beauty.

Historic and cultural projects not only preserve our past and educate our children, but also serve as economic opportunities for our communities to take advantage of a robust tourism industry. The development and maintenance of these sites is an important responsibility of our communities and organizations, but during these difficult economic times, it is getting harder to secure the funding necessary for this work. To assist in these efforts, the federal and state governments distribute billions of dollars worth of grants and loans each year for historical preservation, museum upkeep and cultural tourism.

Finding the resources that meet your needs in this complex web of agencies can be an impossible task. For this reason, I have created this guidebook to serve as a starting point in providing information about what resources are available to individuals, businesses, community organizations and local governments.

The information in this guidebook details grants, loans and other funding assistance. Its contents are by no means comprehensive and as new programs and opportunities emerge, its contents will be updated to provide New Yorkers with the most information possible.

The guidebook is comprised of five different sections, each providing information about grant funding sources, strategies for writing effective grant proposals and ways in which my office can assist you in this process.

My Senate website (www.Gillibrand.senate.gov) is continually updated with critical information about various funding opportunities that are available to you, how to access them, and where to apply. As you move forward with any grant opportunities, please contact Abraham Hiatt, my Grants Director, for letters of support, when applicable. You can reach him in my Washington, D.C. Office at Grants@Gillibrand.Senate.gov, or (202)-224-4451.

Sincerely,

Kirsten E. Gillibrand

Section II: National Endowment of the Arts (NEA)

The National Endowment for the Arts is a public agency dedicated to supporting excellence in the arts, both new and established; bringing the arts to all Americans; and providing leadership in arts education. Established by Congress in 1965 as an independent agency of the federal government, the Endowment is the nation’s largest annual funder of the arts, bringing great art to all 50 states, including rural areas, inner cities, and military bases.

1. Arts and Artifacts Indemnity Program: Domestic Indemnity

- Museums and other non-profit organizations planning temporary exhibitions may be eligible for coverage. The indemnity agreement is backed by the full faith and credit of the United States. In the event of loss or damage to an indemnified object, the Federal Council must certify the validity of the claim and request Congress to authorize payment.

Eligibility:

- Eligible objects include art works, other artifacts or objects, rare documents, books and other printed materials, photographs, films, and videotapes. Such objects must have educational, cultural, historical, or scientific value. If an exhibition is being shown at several institutions, one institution should apply on behalf of all participants.

Indemnity Limits:

- The Arts and Artifacts Indemnity Act allows coverage for a single exhibition up to $750,000,000. The total dollar value of the U.S. loans in the exhibition must exceed $75,000,000 for eligibility. The total dollar amount of indemnity agreements which can be in effect at any one time is $5,000,000,000. The deductible amounts follow.

Additional Information:

- The Arts Endowment is particularly interested in projects that extend the arts to underserved populations -- those whose opportunities to experience the arts are limited by geography, ethnicity, economics, or disability. This is achieved in part through the use of Challenge America: Reaching Every Community funds.

Section III: National Endowment for the Humanities (NEH)

NEH is an independent grant-making agency of the United States government dedicated to supporting research, education, preservation, and public programs in the humanities. The Endowment accomplishes its mission by providing grants for high-quality humanities projects in four funding areas: preserving and providing access to cultural resources, education, research, and public programs.

NEH grants typically go to cultural institutions, such as museums, archives, libraries, colleges, universities, public television, and radio stations, and to individual scholars.

1. Collaborative Research Grants
   Collaborative Research Grants support original research undertaken by a team of two or more scholars or research coordinated by an individual scholar that, because of its scope or complexity, requires additional staff and resources beyond the individual’s salary.

Eligibility:
- Eligible projects include research that significantly adds to knowledge and understanding in the humanities and archaeological projects that include the interpretation and communication of results (projects may encompass excavation, materials analysis, laboratory work, field reports, and preparation of interpretive monographs).
- These grants support full-time or part-time activities for periods of one to three years. Support is available for various combinations of scholars, consultants, and research assistants; project-related travel; field work; applications of information technology; and technical support and services. All grantees are expected to communicate the results of their work to the appropriate scholarly and public audiences.

2. National Digital Newspaper Program

- This program offers funds for creating a national, digital resource of historically significant newspapers published between 1836 and 1922, from all the states and U.S. territories. This searchable database will be permanently maintained at the Library of Congress (LC) and be freely accessible via the Internet.

Additional Information:

- Successful applicants will select newspapers and convert, primarily from microfilm, over a period of two years, approximately 100,000 pages into digital files, according to the technical guidelines (PDF) outlined by the Library of Congress.

Eligibility:

- Any U.S. nonprofit organization is eligible, as are state and local governmental agencies and tribal governments. Individuals are not eligible to apply.
- NEH generally does not make awards to other federal entities or to applicants whose projects are so closely intertwined with a federal entity that the project takes on characteristics of the federal entity’s own authorized activities. This does not preclude applicants from using grant funds from, or sites and materials controlled by, other federal entities in their projects.

3. Rediscovering Afghanistan Program

- The National Endowment for the Humanities invites applications for projects that focus on Afghanistan's history and culture. The special initiative is designed to promote research, education, and public programs about Afghanistan and to encourage United States institutions to assist Afghanistan in efforts to preserve and document its cultural resources.

Additional Information:

- Proposals for the initiative may take the form of projects to preserve and provide access to documents and artifacts; education and training for Afghan archivists, librarians, and museum professionals; new scholarship; scholarly translations; archaeology projects; educational projects in US schools, colleges, and universities for every level, K-16; and public programs conducted by US libraries, museums and historical societies, including exhibitions, film, radio, and Internet-based programs.
Eligibility:

- Applications must be submitted to one of the Endowment's existing grant programs at its regular deadline. Proposals will be evaluated through NEH's established review process and will not receive special consideration.

4. Sustaining Cultural Heritage Collections

- Sustaining Cultural Heritage Collections helps cultural institutions meet the complex challenge of preserving large and diverse holdings of humanities materials for future generations by supporting preventive conservation measures that mitigate deterioration and prolong the useful life of collections.

As they strive to be effective stewards of humanities collections, cultural repositories are increasingly interested in sustainable preservation strategies. NEH therefore invites proposals that explore and implement energy-efficient and cost-effective preventive conservation measures designed to mitigate the greatest risks to collections.

Additional Information:

- This program offers two different kinds of grants. The first grant is for planning and evaluation. To help an institution develop and assess preventive conservation strategies, grants of up to $40,000 will support planning and evaluation projects, which may encompass such activities as site visits, planning sessions, monitoring, testing, project-specific research, and preliminary designs for implementation projects. Planning and evaluation grants may be especially helpful to institutions interested in exploring sustainable preventive conservation strategies.

- The second grant is for implementation. It is designed to help an institution implement a preventive conservation project; grants of up to $400,000 are available. Implementation projects should be based on planning that has been specific to the needs of the institution and its collections within the context of its local environment. It is not necessary to receive an NEH planning and evaluation grant to be eligible for an implementation grant.

Eligibility:

- Any U.S. nonprofit organization is eligible, as are state and local governmental agencies and tribal governments. Grants are not awarded to individuals.
5. America’s Historical and Cultural Organizations: Planning and Implementation Grants

- America’s Historical and Cultural Organizations grants support projects in the humanities that explore stories, ideas, and beliefs that deepen our understanding of our lives and our world. The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways. Grants for America’s Historical and Cultural Organizations should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public.

Additional Information:

- NEH offers two categories of grants for America’s Historical and Cultural Organizations: Planning and Implementation Grants. Planning grants are used for creating plans and refining of the projects main humanities ideas and questions. Implementation grants are for shovel ready projects for which a full walkthrough and presentation of ideas already exists.

Eligibility:

- Any U.S. nonprofit organization with IRS 501(c)(3) tax-exempt status is eligible, as are state and local governmental agencies. Eligible institutions include but are not limited to public, school, academic, and research libraries; museums; disciplinary and professional associations; cultural institutions; state humanities councils; and institutions of higher learning. Individuals are not eligible to apply.

Additional Information:

- Proposals should be for the planning or initial stages of digital initiatives in any area of the humanities.
- Digital startup grants may involve research that brings new approaches or documents best practices in the study of the digital humanities; planning and developing prototypes of new digital tools for preserving, analyzing, and making accessible digital resources, including libraries’ and museums’ digital assets; scholarship that examines the philosophical implications and impact of the use of emerging technologies; and innovative uses of technology for public programming and education utilizing both traditional and new media.

Eligibility:

- Eligibility is limited to U.S. nonprofit organizations or institutions with IRS 501(c)(3) tax-exempt status; and state and local governmental agencies and Native American tribal organizations.
- Degree candidates may not be project directors.

**Additional Information:**

- The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways.
- Interpreting America’s Historic Places projects may interpret a single historic site or house, a series of sites, an entire neighborhood, a town or community, or a larger geographical region. Grants for Interpreting America’s Historic Places should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public.
- NEH offers two categories of grants for Interpreting America’s Historic Places: Planning and Implementation Grants.

**Eligibility:**

- Planning grants are available for those projects that may need further development before applying for implementation. This planning can include the identification and refinement of the project’s main humanities ideas and questions, consultation with scholars in order to strengthen the humanities content, preliminary audience evaluation, preliminary design of the proposed interpretive formats, beta testing of digital formats, development of complementary programming, research at archives or sites whose resources might be used, or the drafting of interpretive materials.
- Implementation grants support the final preparation of a project for presentation to the public. Applicants must submit a full walkthrough for an exhibition, or a prototype or storyboard for a digital project that demonstrates a solid command of the humanities ideas and scholarship that relate to the subject. Applicants for implementation grants should have already done most of the planning for their projects.
- Any U.S. nonprofit organization with IRS 501(c) (3) tax-exempt status is eligible, as are state and local governmental agencies. Individuals are not eligible to apply.

Section IV: Institute of Museum and Library Services

The Institute of Museum and Library Services is the primary source of federal support for the nation’s 123,000 libraries and 17,500 museums. The Institute's mission is to create strong libraries and museums that connect people to information and ideas. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development.

Libraries and museums help create vibrant, energized learning communities. Our achievement as individuals and our success as a democratic society depend on learning continually, adapting to change readily, and evaluating information critically.

As stewards of cultural heritage, information and ideas, museums and libraries have traditionally played a vital role in helping us experience, explore, discover and make sense of the world. That role is now more essential than ever. Through building technological infrastructure and strengthening community relationships, libraries and museums can offer the public unprecedented access and expertise in transforming information overload into knowledge.

Our role at the Institute is to provide leadership and funding for the nation’s museums and libraries, resources these institutions need to fulfill their mission of becoming centers of learning for life crucial to achieving personal fulfillment, a productive workforce and an engaged citizenry.

1. Museum Assessment Program Grants

The Museum Assessment Program (MAP) is supported through a cooperative agreement between the Institute of Museum and Library Services and the American Association of Museums. It is designed to help museums assess their strengths and weaknesses, and plan for the future.

Additional Information:
- The program provides technical assistance for four kinds of assessments: (1) collections management; (2) governance; (3) institutional; and (4) public dimension. Assessments are funded on a first-come, first-served basis. Museums may apply for MAP assessments in any sequence. Application materials can be obtained by contacting the American Association of Museums.
2. Statewide Planning Grants

This grant program is part of the Connecting to Collections Program. This grant provides funds for creating plans to insure the safety of public information collections and the people working with those collections. Organizations will seek to better understand the obstacles to receiving training – including cost, travel time, and time away from work. From this, they will learn which formats (site visits, publications, workshops, online training) work best for the institutions.

Topics for preservation education and assistance will also include disaster preparedness and response, surveys, security, environmental controls, and funding.

Additional Information

Eligibility:

- Any U.S. nonprofit library or museum is eligible. Organization must have several partnerships with similar institutions in NY.
